Bus-In Program

Mr. Phung Duc Tien

Vice Minister Ministry of Agriculture & Envoirement

"The trade fair is highly significant, contributing to the transfer of techniques and elevating the quality of Vietnamese shrimp. It helps farmers access new technology. A closed chain—from breeding stock, feed, harvesting processes, to safe traceability—will create motivation for the development of the shrimp industry in particular and the aquaculture sector in general."

Mr. Ben Wong

Country General Director Informa Markets Vietnam

"And with the co-location of **AQUACULTURE Vietnam** and **VIETSHRIMP Asia 2026**, it will provide an even wider outreach to the region and we expect buyers to come from all over the world. And Vietnam really as the global meeting point for the shrimp industry."
